A new fabric for uniforms

80% DACRON and 20% "Cordura"

WHAT IT IS

All the talents of DACRON polyester fiber now combine with "Cordura" to bring you a fabric especially designed for uniforms. Here, in this blend of DuPont fibers is a new freedom from lint and static... a fabric which shuns spots... sheds wrinkles. And just the right amount of "Cordura" lets this fabric "breathe"... stay so comfortable and light you can wear it clear through summer... and then some!

WHAT IT LOOKS LIKE

This totally new fabric is more opaque... has a rich look of luxury... fine draping qualities. Holds its crisp, fresh appearance through countless washings... stays white wearing after wearing.

Your uniform of 80% DACRON and 20% "Cordura" keeps its festive air even on the warmest days... even with the busiest schedule... for this combination of fibers keeps it fresh... wrinkle free... beautifully light and lovely to wear.

HOW TO CARE FOR IT

Thanks to DACRON, your uniform almost cares for itself... is ready to be worn at a moment's notice! Simply wash by machine or hand in warm suds without using dry cycle or wringing... little or no ironing needed.
